2. **List the physical address of each property for which claimant(s) is/are making a claim:**

3. **List the ownership interest claimant(s) has/have in the property listed in 2 above:**

Lorick Service Station, Inc (LSS) owned this property from 14-Nov-1936 until January or February 2003 when this property was formally condemned by Lexington County, South Carolina for the new Lexington County Administrative and Judicial Center. LSS was legally dissolved in April 2003 after receiving the final Settlement from Lexington County.

4. **Provide a brief statement of your basis to believe that the property listed in 2 above was/is contaminated from Exxon's service station operations:**

An Esso/Exxon Service Station was located on the property from sometime in the 1950's (possibly the 1940's) until the mid-1970's. Esso/Exxon removed the fuel pumps and underground storage tanks during the mid-1970's when service station operations were discontinued at the site. The property was condemned in 2001/2002 by Lexington County, South Carolina for the new Lexington County Administrative and Judicial Center facility. When the property was condemned, documented testing was performed (by Kleen Sites Geoservices, Inc) that indicated the presence of underground petroleum contamination. As a result, LSS incurred a cost of approximately \$9,601.00 in discovery costs plus an additional \$25,000.00 for the SC DHEC SUPERB Fund deductible – excluding attorney fees, property devaluation, etc. Legal documentation of the contamination can be obtained from the following parties:
