On Midway Street, I lived near Holiday tanks for which I think was Exxon Holiday tanks and also a station around the corner of them when we lived. Also, on Weimer Street lived next door the street from what might have been Exxon Station. No telling what potentially contaminated petroleum products, or chemicals associated with petroleum products that may have leaked, spilled, or been released into the environment either from equipment owned, operated or controlled by Exxon, its agents or its predecessors, or for service station operation conducted by Exxon, its agents or predecessors, or under the control of Exxon or its predecessor.

I am reasonably sure that under the clean letter sent that you are pretty sure of all the former names, addresses & location of any of our Exco assistants. If more information is needed. Please call me at 803.245.9745. Also lived down the street on Church Street at 3 different locations from corner of Stables on Main Street. I am willing to dig up former proof of residency at these locations if your counsel probably has record of any spills, leaks, etc from Exco station & equipment.

Thanks,

Jellie H. Roberts
